Accessibility at Totara

WebAIM Million 

webaim.org/projects/million

Accessibility analysis

Top 1 million home pages

Automated

WebAIM Million 

**98% of pages had
WCAG 2.0 failures**

WebAIM Million 🚫

**Average of
60 errors per page**

Error (% of pages)

Empty links (58%)

Empty buttons (25%)

Error (% of pages)

Missing form labels (52%)

The good news 🎉

Automatically detectable
errors

For example:
deque.com/axe

Avoid errors in the first place 🥰

**Always have
text equivalents for
non-text stuff**

**Always have labels
(visible or not)**

TL;DR: run deque's axe 🙌

Thanks! 🙏
